

Certified Plant Producer

This is to certify that

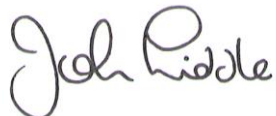

Riversun Nursery Ltd

has participated in the pilot programme for the New Zealand Plant Production Biosecurity Scheme (PPBS) and has met the requirements for certification to the

Scheme's Core Standard

through to late 2020.

They have demonstrated their production is undertaken under conditions of strong biosecurity risk and hazard management and can provide assurance that their plants have been raised in conditions that minimise the introduction and spread of pests.
